Summary

Product and program leader with 7+ years of experience driving initiatives across technology, design, and community-focused organizations. Known for leading cross-functional teams, managing scope and timelines, and translating complex technical systems into clear execution plans. Technically fluent with a strong computer science background, enabling effective collaboration with engineers while maintaining a product-driven, people-first leadership style.

Education

California State University, East Bay — Bachelor of Science in Computer Science (Aug 2023 – May 2026) | GPA: 3.6

Relevant Coursework: Software Engineering, Machine Learning, Artificial Intelligence, Natural Language Processing

Product & Program Leadership

theOnlineCloset — Product Lead & Project Manager (Jul 2024 – Present)

- Led end-to-end product development of a full-stack web platform enabling users to organize clothing items and generate personalized outfit recommendations.
- Defined product vision, feature scope, and development milestones while coordinating design, engineering, and deployment efforts.
- Partnered closely with engineers to design system architecture and AI-powered features, maintaining hands-on technical understanding.
- Balanced rapid iteration with system reliability, ensuring on-time delivery aligned with user needs.
- Managed a small cross-functional team, facilitating prioritization, communication, and continuous improvement.

NAACP National Board Member — NAACP (Feb 2022 – Feb 2026)

- Led national-level initiatives by organizing teams and executing programs across multiple regions.
- Directed grassroots projects focused on youth engagement, advocacy, and community development.
- Developed and presented strategic plans for national conventions and participated in governance discussions.

Professional Experience

Project Developer (Applied AI) — Outlier AI (Feb 2024 – Dec 2024)

- Supported delivery of customer-facing AI initiatives by evaluating model outputs and validating solutions.
- Translated technical problem statements into actionable implementation plans.
- Collaborated with distributed teams using asynchronous communication tools.

Fashion Designer & Creative Director — VagueSoul Clothing (Jun 2023 – Present)

- Directed fashion shows, overseeing creative direction, logistics, timelines, and team coordination.
- Managed branding, marketing, photography, and social media campaigns for product launches.
- Led community workshops, balancing creative instruction with project execution.
